DETAILED ACTION

Allowable Subject Matter

1. Claims 1-43 are allowed.
2. The following is an examiner's statement of reasons for allowance:

With respect to claims 1-39, applicant's amendments to independent claims 1, 20, and 37 and the associated arguments (remarks filed 9/1/2005, pages 12-16) are persuasive and have distinguished from the prior art of record.

The prior art (Swanson, David and Winski) disclose a number of the elements of the claims, such as stacking pluralities of first singular cartons, positioning adhesive, and stacking a plurality of second singular cartons. However, the amendments make clear that the process is directed towards the creation of composite cartons such that "each first singular carton in the plurality of first singular carton is adhered to only one second singular carton, no first singular carton in the plurality of first singular cartons is adhered to any other first singular carton in the plurality of first singular carton, each second singular carton in the plurality of second singular cartons is adhered to only one first singular carton in the plurality of first singular cartons, no second singular carton in the plurality of second singular cartons is adhered to any other second singular carton in the plurality of second singular cartons". The process of the prior art reference does not create these products, but rather stacks easily separable cartons for transportation purposes.

With respect to claims 40-43, the prior art of record does not suggest the step of detecting the presence or absence of adhesive at each adhesive location after adhesive is deposited on each first singular carton in the context of the method steps claimed, such as stacking pluralities of first singular cartons, positioning adhesive, and stacking a plurality of second singular cartons.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

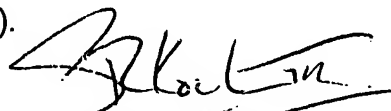

3. The drawings filed 9/12/2003 have been approved by the Examiner.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to George R. Koch III whose telephone number is (571) 272-1230 (TDD only). If the applicant cannot make a direct TDD-to-TDD call, the applicant can communicate by calling the Federal Relay Service at 1-866-377-8642 and giving the operator the above TDD number. The examiner can normally be reached on M-F 9-5.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Christopher Fiorilla can be reached on (571) 272-1187. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
